

HARCOURT BUTLER TECHNOLOGICAL INSTITUTE, KANPUR

Hostel Facilities, Allotments & Related Fees (2009-10)

The Institute has 08 boys & 03 girls hostels for undergraduate and postgraduate students & research scholars.

Each of the hostels has its own mess which is managed & run by the hostel inmates on cooperative basis under supervision of the warden & other members of the council of hostel activities.

Presently the Institute is not able to extend hostel facility to all the interested students & so is the situation for new entrants as well, due to shortage of hostel accommodation. The Institute is able to provide hostel facility to about 55% to 60% of the total intake of about 500 students of the institute at first year level & the hostel facility is not available for local students at all.

The hostel seat allotment for new entrants is done strictly on the basis of UPSEE-09 rank following UP Govt. reservation policy. The reservation policy is applicable for hostel seat allotment in each branch of Engineering, Technology & MCA.
